

# TIRES FROM BELARUS

Belagro Company is the largest supplier of agricultural machinery and spare parts for all sectors of the national economy. We are providing full complex of services, starting from consulting on the equipment choice to guarantee and post warranty maintenance.

Tires is a critical component that determines the reliability, safety and efficiency of any equipment. Belagro Company offers a wide range of tires for agricultural, construction, road and industrial machines as well as for trucks of domestic and foreign production.

Today our product portfolio consists of more than 300 types and sizes, and is presented by such brands as "Belshina", «Kama» and others. We offer quality products, low prices, optimal conditions and terms of delivery. Therefore we have good experience in delivering items to foreign markets (Pakistan, Vietnam, Czech Republic, Poland, Lithuania, Kazakhstan and others). Due to their reliability, durability and comfort Belshina tires has won high reputation among both home and foreign customers.
